EXECUTIVE SUMMARY

Computer Science Engineering graduate with hands-on experience in Python, SQL, Flask APIs, developing ML models and interactive Power BI dashboards. Contributed to ML pipelines and UI/UX prototypes during internships, using OOP principles to build applications. Passionate about turning ideas into solutions through technology and data. Eager to tackle engineering challenges, contribute to real-world software development, and grow as a Data analyst.

SKILLS

- **Programming & Core:** Python, SQL, OOP, REST APIs
- **Frameworks & Libraries:** Flask, Pandas, NumPy, Scikit-Learn
- **Data & ML:** ML Pipelines, Model Training & Evaluation, Power BI
- **Databases & Tools:** MySQL, Git, GitHub, VS Code, Figma
- **Interpersonal Skills:** Resilience, Adaptability, Empathy

PROJECTS

Disease Prediction in Livestock | Python, Flask, NumPy, Pandas

- Trained a Random Forest classifier using **Pandas and NumPy**, achieving **91% precision** to assist in preliminary symptom screening for livestock.
- Built a lightweight Flask REST API to process real-time symptom inputs and return diagnostic predictions.

Network Intrusion Detection System | Python, REST API, Scikit-Learn, Seaborn

- Implemented a **Deep Q-Network (DQN)** with a meta-adaptive reward mechanism to detect complex network anomalies and malicious traffic patterns.
- Developed a **Flask REST API** to integrate the trained model and enable real-time network threat predictions.

Expense Tracker & Analytics Dashboard | Python, SQLite, Flask, Power BI

- Built a web-based financial tracker using **Flask and SQLite** to categorize daily transactions.
- Integrated transactional data with an interactive **Power BI** dashboard to track budget metrics, and visualize monthly spendings.

INTERNSHIPS

AI/ML Intern | POLENZA Tech Solutions

Jun 2025 - Jul 2025

- Developed an image classification model for automated waste segregation using **Python, TensorFlow** and Keras.
- Preprocessed and augmented image datasets to improve data quality and support model training.

UI/UX Intern | RE-TECH Solutions

May 2024 - Jun2024

- Designed mobile wireframes and interactive prototypes in **Figma**, modeling core e-commerce features inspired by Flipkart.

EDUCATION

SRM Valliammai Engineering College

- B. E Computer Science and Engineering | CGPA: **9.01**

Aug 2022 - May 2026

Saraswathi Matriculation Higher Secondary School

- Higher Secondary Certificate - **91%**
- Secondary School Leaving Certificate - **96 %**

Jun 2021 - May 2022

Jun 2019 - Jun 2020

CERTIFICATIONS & WORKSHOPS

- **SQL for Data Analysis** - Simplilearn
- **Python Basics** - Infosys Springboard
- **AI-Assisted Coding Workshop** - Error Makes Clever Academy

ACHIEVEMENTS

- **Poster Presentation** - Achieved 1st Place (2024) & 3rd Place (2023), Annual Mathematics Fest, SRM.
- **Paper Presentation** - “Disease Prediction in Livestock”, SRM-VEC National-Level Technical Symposium (2025).
